

OHxF 87™

(Brooks Selection) U.S. Plant Patent No. 6392
OHxF 87™ makes a tree slightly smaller than Bartlett on seedling root. It is considered a semi-dwarf tree. OHxF 87™ is one of the best producing rootstocks of the OHxF series and was selected for this reason. The OHxF selections are compatible with most pear varieties and are known for their tolerance to blight and decline. Research from Oregon shows OHxF 87™ is an excellent producer. As a patented selection, OHxF 87™ is available only through selected outlets. Van Well offers this rootstock through a licensing agreement with Carlton Plants, Inc.
